BEYOND4.0 Summer School

The Summer School for BEYOND4.0 and partners is hosted by the Government of Gipuzkoa. The event is organised with the contribution of: Gipuzkoa Workplace Innovation, Paradigms 4.0 and European School of Social Innovation.

Beyond4.0 (H2020) has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 822296.

The Beyond4.0 Summer School is hosted by:

Organised by:

BEYOND 4.0

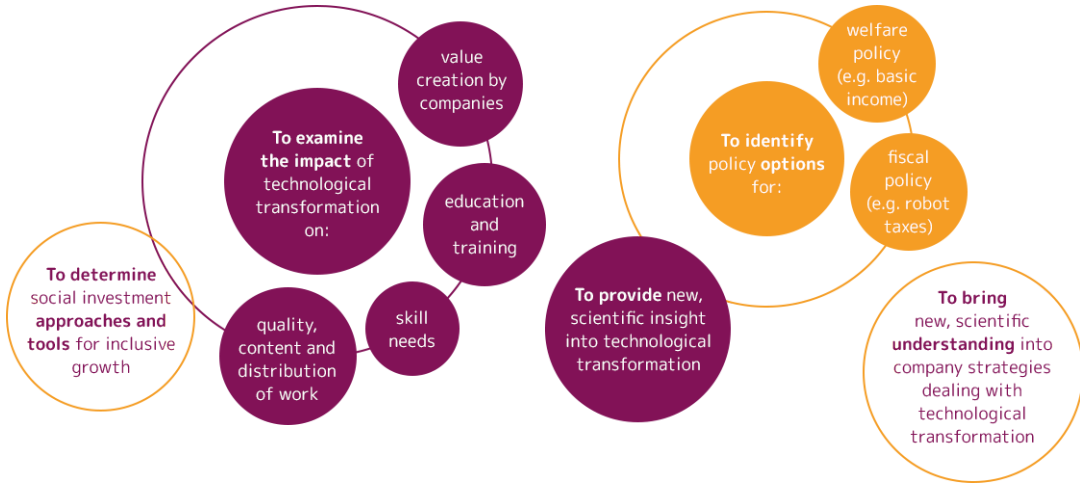

Contributed by:

BEYOND4.0 Summer School

BEYOND4.0 aims to help deliver an inclusive European future by examining the impact of the new technologies on the future of jobs, business models and welfare. BEYOND 4.0 addresses the general priorities of the H2020 Work Programme (2018-2020) “Europe in a changing world - Inclusive, innovative and reflective societies”.

The BEYOND4.0 Summer School 2019 aims to deepen understanding of evidence-based policies with the transformative potential to positively shape work and welfare in the Digital Age. The Summer School, it is an opportunity to explore and learn more about creating an inclusive European future. During the Summer School the participants will examine how to study the impact of the new technologies on the future of jobs, business models and welfare. The Summer School includes sessions focused on conceptual and historical understanding of technological transformations, as well as current studies and research in the field. The purpose is to generate a new research agenda.

The Summer School will address the following topics:

- How to study and research work and welfare in the digital age.
- What kind of data sets are useful and how to best use and connect them.
- How to study regional contexts and ecosystems and their economic digital transformation.
- How to study socio-economic consequences of technological transformations.
- How to understand future skills and roles of stakeholders.
- How to study technological transformations from a historical perspective.
- How to study company strategies that lead future economic and social performance.
- How to study platform economies in relation to welfare, tax and inclusiveness.
